

WHEN I GROW UP

Verse 1

When I grow up I want to be a fireman
Put out the fires with my great long hose
When I grow up I want to be in the circus
Make people laugh with my big red nose

When I grow up I want to be a doctor
To make people better who are (cough cough) sick
When I grow up I want to be a builder
And build a house out of timber and bricks

Chorus

But for now I'll just have to pretend
And play dress-ups with my friends
Wait for the years to pass me by
And then we'll see what I want to be
When I grow up

Verse 2

When I grow up I want to be a ballerina
Stand on my toes and twirl round and around
When I grow up I want to be in an orchestra
Play my instrument really loud

When I grow up I want to be a policeman
And make sure people do the (whistle) right thing
When I grow up I want to be a queen
And live in a castle with a handsome king

Chorus

Bridge

But I don't want to grow up
Grown ups make me throw up
I tell my body to slow up
I keep getting taller and older
And bigger and bolder
And it just won't stop

Coda

When I grow up (no I don't want to)
When I grow up (no, not yet)
When I grow up (nup!)
When I grow up
